

Computers in Jury Assembly Room

Submitted by Dolores Curiel

September 1, 2011

We would like to know if you have computers for the jurors to use while they are waiting in your Jury Assembly Room.

If yes,

- 1) How many computers do you have in your juror assembly room?**
- 2) Do you have time limits on how much time they can use the computer so other jurors have time to use? If so, how long?**
- 3) Are the computer(s) set up with firewalls or other limitations?**

1	Diana Gifford-Tuggle	Shasta county does not provide computers for jurors, but do allow them to bring their own.
2	Cathi Scamara	San Luis Obispo does not.
3	Robyn Hauck	What's a jury assembly room? Kidding, unfortunately Yuba County does not have a jury assembly room. The courthouse has WIFI and does have a free guest channel that people can use if they are waiting in the hall.
4	Kathleen Shambaugh	No in Contra Costa but jurors can bring their own and we have wireless access.
5	Arlene Cervantes Riverside	1) How many computers do you have in your juror assembly room? 7 2) Do you have time limits on how much time they can use the computer so other jurors have time to use? If so, how long? No limits 3) Are the computer(s) set up with firewalls or other limitations? The computers are set up for games only.
6	Therese Phelps	Plumas County does not have a jury assembly room; therefore, no computers for jurors to use.
7	Sherry Spears	The same is true in Fresno.
8	Julie Griffith	In Kern we do not provide computers but have WIFI access in our assembly room.
9	Joe Yniquez - Stanislaus	1) How many computers do you have in your juror assembly room? 2 2) Do you have time limits on how much time they can use the computer so other jurors have time to use? If so, how long? 1/2 hour 3) Are the computer(s) set up with firewalls or other limitations? Computer internet connection through WiFi.
10	Carol Sharek	Tehama County is the same as Shasta County.
11	Bea Gin	San Joaquin County does not provide computers, nor do we have WiFi.
12	Lupe Castaneda	Santa Clara does not have computers for the jurors. We do provide WiFi access.
13	Angela Braun	Santa Barbara County does not offer computers but we have WiFi in our Jury Assembly Room.
14	Sabra Forbes	No computers for jurors in Solano...just WiFi.

15	Morgann Halencak	Mariposa does not have a Jury Assembly Room at this time.
16	Rose Hamblin	The same in Kings County.
17	Debbie Jurevich	San Benito does not have computers for jurors.
18	Kathy Pollard - Arizona	<p>In Tucson, AZ, we have 9 internet access computers in our jury assembly room. We also have WiFi for jurors who bring their own laptops.</p> <p>We ask the jurors to monitor their own time and to log off after 20 minutes if all of the computers are in use. I think we've only ever had a complaint once or twice in the past 10 or so years about someone not being able to get on a computer.</p> <p>These computers have the same firewall as the court employee computers. They do not have any programs loaded on them and are not hooked up to printers. Jurors can only surf the net.</p>
