12	Joe Yniquez / Stanislaus	<p>Stanislaus does have a free juror parking area. Since it's limited jurors find alternative parking and some areas require them to pay. More often than not jurors will pay to park closer in the garages across the street from the courthouse since the free parking area is about 5 blocks away. The city provides the free parking area to jurors. Court employees don't even get free parking in the garages. We have to pay a monthly fee if we want to use the parking garages nearby. When we get a new courthouse it'll include a garage for court employees and jurors. Still in the location/planning stages so probably a few years away.</p>
